

Wednesday 23rd September 2020.

Dear Parents/ Carers,

This year we have set up a new Home Learning Scheme, which we hope will help enhance the Mental Arithmetic abilities of our children. This will follow them through their journey at Hamstel starting from Nursery and continuing through and into Year 2.

Each half term, your child will bring home a Key Instant Recall Fact sheet (KIRFs) with a half-termly focus for you to practise at home with your child. This is intended to be short, snappy sessions as often as you are able during your day and week. The focus will also be taught alongside your child's learning in class and the children will be receiving rewards based on their hard work. The letter will contain all the key information needed to practise and learn at home and will include some fun activities to get you started.

Over this week, Reception will be bringing home their first Key Fact.

Many thanks,

Miss N Goodman
 Maths Lead
