

Growing and Changing Year 2

We are finishing our summer term in Year 2 with the theme 'Growing and Changing'. We will be learning about how animals, including humans grow and change over time. We will also be thinking about a healthy lifestyle.

We would love for you to get involved over the next few weeks with your child at home too, so here are some ideas for you to choose from. Home learning can be brought into school or shared on Seesaw. We look forward to seeing it 😊

Find out about the life-cycle of a favourite animal. Make a mini fact file about your chosen animal.

Build a model of Tad's home (pond) using an old box.

Design and make linked to healthy food and living.

Using a timer see if you can do some different exercises in 1 minute e.g. how many star jumps can you do? Can you beat your score?

Make a healthy snack at home. Can you write some instructions to tell someone else how to make it?

Make a model of the life-cycle of a tadpole to a frog.
